

PRO LITE FEATHER FLAGS SPECIFICATION

Information

These traditionally shaped feather flags are ideal to promote any small event or business. The feather flag floats gently in the wind when placed outside, however is 'sturdy' enough to still be readable.

The gentle movement of the feather flag is eye catching and therefore makes it a perfect flag to advertise companies and give directions at smaller sporting events such as marathons or road bicycle racing events. Our feather flag is compact and ideal for both indoor and outdoor use, with an easy set up. Available with a range of bases our 2.8m feather flag can adapt from outdoor and indoor use with very little effort (minus the spiked bases). Our feather flags can be printed one sided (with a 90% show through mirrored) or printed both sides using one graphic repeated or 2 differing graphics.

Suitable for long graphics, text or imagery. All prints are water resistant. Easy set up and dismantle with a lightweight but sturdy pole.

Material

Feather flags are made from 115gsm knitted polyester.

Print Process

Full Colour Dye Sublimation

Measurements

2.8m:

Visible Graphics Area (mm)
500 (w) x 1900 (h)

Assembled Dimensions (mm)
550 (w) x 2450 (h)

3.4m:

Visible Graphics Area (mm)
600 (w) x 2600 (h)

Assembled Dimensions (mm)
650 (w) x 3050 (h)

4.5m:

Visible Graphics Area (mm)
785 (w) x 3400 (h)

Assembled Dimensions (mm)
850 (w) x 4060 (h)

5.6m:

Visible Graphics Area (mm)
850 (w) x 4400 (h)

Assembled Dimensions (mm)
900 (w) x 5000 (h)

All sizes are approx.
